Appleton Club - 12th Year

Typical Appleton Club monthly shipment

Hard to believe it has been more than 11 years since we started out Appleton Club back in August, 2006 with just 4 members. We had 11 by the end of the first year. A few opted to get all the 423 colors are once.

Others went the more traditional way of getting 35 or 36 skeins sent every month for a year.

We have had more than 100 people in our club.
The price per skein is considerably less than buying the skeins individually and
this way you always have the color you need.

If you are interested in joining, this is the best time.
It is when we start the rotation anew and you get colors 101 - 183 early in the month,
ending with color 998 this time next year.

Just one left....

Embroidery Kits

"Woman with Houseplants"

"Flying Fairy Girl"

"Love Loops"

We are down to just **one** of each of these designs.
If you want one, now is the time. I'll try to get them off the website as soon as they are sold.

Everything you need to complete the project is included even the hoop.

Design is pre-printed on the fabric.

Price: \$20 for the first two and only \$10 for "Love Loops".

They are on our website and ready to send while they last.

Eucalan

Have you seen what 'All Natural Ideas' has written about our Eucalan wash?
Here it is if you missed it:

This pairs nicely with our all natural wool dryer balls

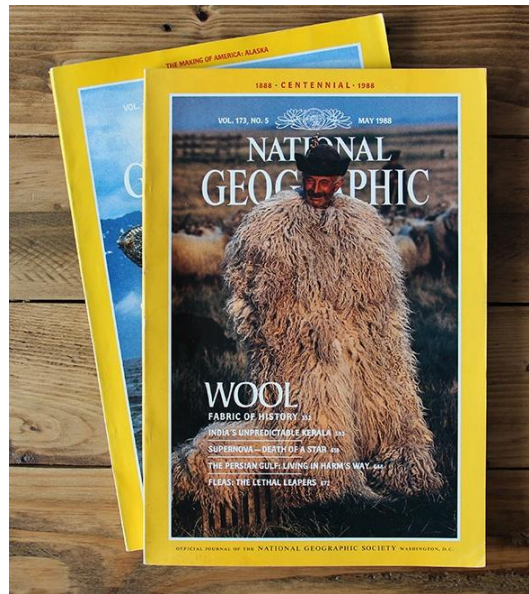

Eucalan for washing and dryer balls for drying.
A nice natural combo.

Here is a link to our dryer balls....

A Fun Read

Back in 1988 *National Geographic* magazine devoted an entire issue to wool

Lots of fun facts and interesting information.

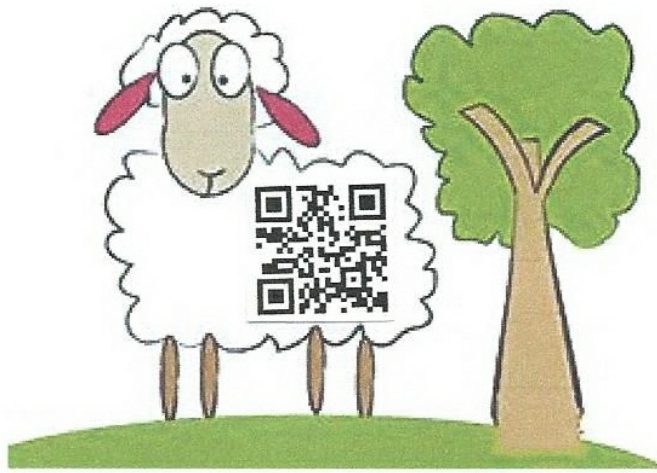

If interested, here is a link to read more about it:

In closing...

August days in my part of the country are very hot (100+ degree temps expected all week) and that makes for lazy days, but September is the best month we have for weather and it is not too far away.

Enjoy (or endure) these last days of summer.

Scan the small box with your smart phone and our entire website will come up on your mobile device.
